

PABLO RODRIGO FRANDALOZO DARDE

Software Engineer

+55 (54) 99665-4611 | @ pablodarde@gmail.com | https://darde.github.io/

SUMMARY

Software engineer and technical lead with 10+ years of experience building and scaling digital products across global markets. Specializing in modern web architectures and mobile development. Proven track record of leading distributed teams, improving system performance, and driving product-focused engineering decisions.

PROFESSIONAL EXPERIENCE

Technical Lead May 2023 - Present
Remedy Product Studio Brazil

- Leading a distributed team across Europe, US, and Latin America in a VueJS/Python (FastAPI) project.
- Improved system stability and reduced incident response times through proactive monitoring; enabled faster feature delivery by fostering best practices and mentoring across a geographically distributed team; contributed hands-on to key architectural decisions that enhanced scalability and maintainability.

Principal Software Engineer Dec 2021 - May 2023
Pipefy Brazil

- Increased developer productivity and code quality by implementing an RFC system that standardized processes and reduced duplicated code; enhanced team skill development and retention through launching a successful internal mentoring program; contributed to faster feature delivery aligned with company goals.

Senior Software Engineer Dec 2020 - Dec 2021
X-Team Brazil

- Contributed to large-scale SaaS applications using React, NodeJS, NextJS, and microservices architecture.

Senior Software Engineer Jun 2017 - Dec 2020
RD Station Brazil

- Increased customer engagement and feature adoption through the new drag-and-drop editor, which was responsible for a significant decrease in support tickets;
- Reduced deployment time for frontend projects significantly by introducing the micro-frontend orchestrator; We build the orchestrator and a CLI from scratch, allowing developers to scaffold new frontend apps quickly.

Frontend Specialist May 2016 - Jun 2017
Daitan Group Brazil

- Led frontend development for projects in partnership with a Palo Alto-based company.
- Enabled smoother and faster deployment cycles through improvements in CI/CD pipelines; strengthened cross-border collaboration, resulting in higher-quality frontend deliverables aligned with partner expectations.

SKILLS

Frontend

React, Redux	9 years
TypeScript	9 years
JavaScript	13 years
Vue	1 year
React Native	4 years

Backend

NodeJS	6 years
Python/Fast API	1 year
Ruby on Rails	2 years
GraphQL	3 years
NextJS	4 years

Complementary Skills

REST * Express * Prisma *
MongoDB * Postgres

Cloud providers/Infrastructure

AWS * GCP * Vercel * GitHub
Actions

Senior JavaScript Developer

Apr 2015 - May 2016

SAP

Brazil

- Accessibility enhancement in complex interfaces.

EDUCATION

Bachelor of Science, Software Engineering

Mar 2018 - Dec 2021

Cesumar

Brazil

Information Systems Technician

Mar 2005 - Nov 2007

UFRGS - Federal University of Rio Grande do Sul

Brazil
